Sir:

In response to the Office Action dated June 4, 2003, applicants hereby elect, with traverse, Group I, from which at least claims 1-49, 61, and 66-69 are readable, for prosecution in the subject application.

In addition, applicants traverse the restriction requirement by submitting that claim 70 (in Group VI) and claim 140 (in Group VIII) should be examined together with the elected Group I claims since these claims are directed to the software and system that implements the method of the Group I claims. Accordingly, these claims are not distinct from the claims of Group I and there should be no additional search burden on the examiner to examine these claims.

In addition, applicants herein concurrently amend claims 50-53 (in Group II) to depend from claim 1. Accordingly, applicants request that claims 50-53 be examined

together with the elected Group I since examining these claims would not pose an undue search burden on the examiner and they are now dependent from claim 1 in Group I.

Applicants, of course, reserve the right to file a divisional application covering the subject matter of the non-elected claims.
